Saudi Arabia

Our history of reputable work has established MEMO Group among the most trusted and best MEP contracting firms in the region.

Our History

MEMO is a group with a long and wide history. It started in 2002, as is a highly equipped contracting company to design, build, test, and commission electromechanical projects due to its extended years of experience in building residential, commercial, and Heavy Engineered Industrial Plants.

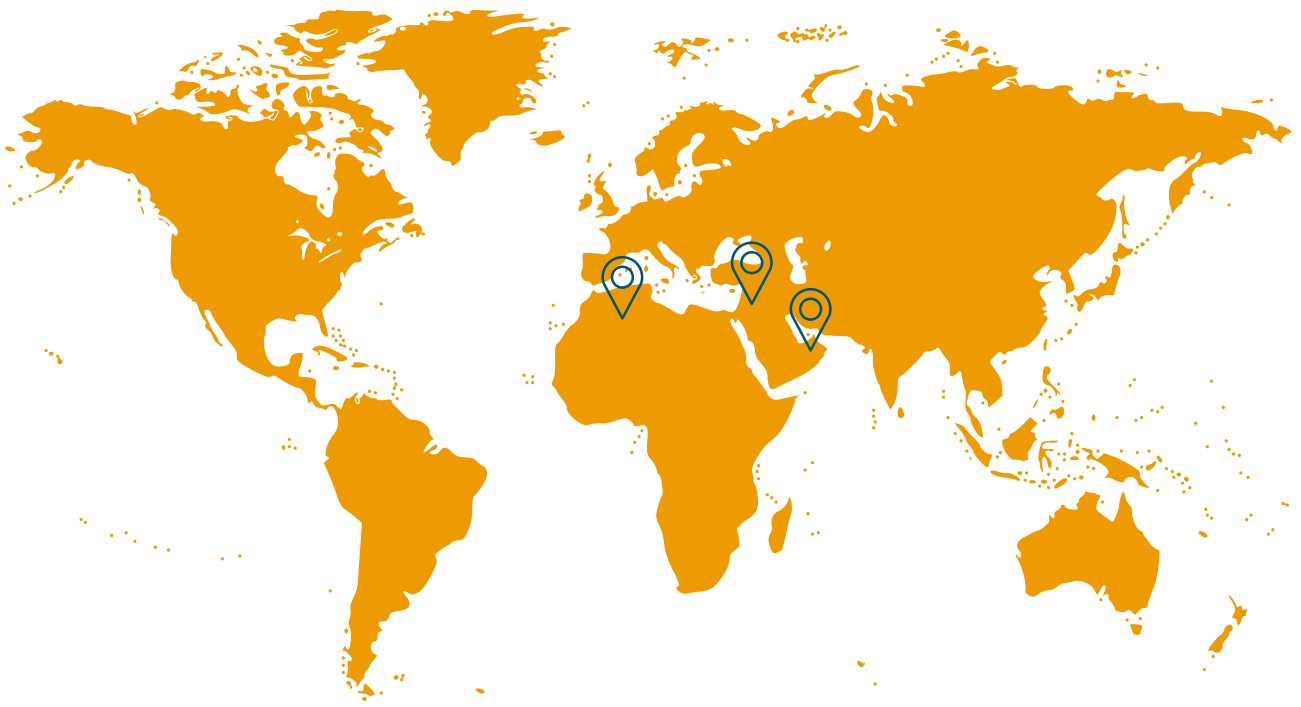

Since initiated, MEMO has proven its expertise through a long success track in executing numerous medium to large scale prestigious MEP projects in Lebanon and the Arab Gulf market at the highest quality standards and safety records.

Moreover, in recent years, MEMO has expanded its services to fulfill the

trending markets demand in the fields of Consultancy, Energy Management Solutions, Vocational Training Services, and Electromechanical Maintenance Services for Residential, Commercial, and Industrial facilities.

Our commitment to execute projects with the highest quality, on schedule, and within budget while adhering to excellent standards of health, safety, and environment, positioned Memo to be recognized as an icon in Electro-Mechanical Engineering.

With the professional, experienced, and devoted workforce and progressive management, the MEMO is moving towards a better future.

MEMO Group consists of:

Our Mission

With wide knowledge, products, and services, our mission is to resolve challenging technical design and engineering problems using successful project implementation, combining our expertise with new technologies, and working towards the highest delivery standards for cost-effective solutions.

Our Vision

Our vision is to become an international player not only in the electrical and mechanical sectors (MEP) but also within the energy management and renewable energy sectors with an aim to create partnerships, long term investments, turnkey solutions, and ultimately to maximize customer satisfaction ensuring we provide you with an optimum and reliable solution for your business.

Safety

Memo Group implements a comprehensive and integrated QHSE Management System and is committed to a policy of prevention and elimination of all undesired events that could affect the Health & Safety of its employees as well as the protection of the Environment.

Our core values are translated into every aspect of our business.

Our Core Values

Integrity: We trust and can be trusted.

Integrity is the guiding principle in our business interactions. It is an unconditional commitment to respect the trust of clients and employees alike. We stand by what we say and take accountability for every decision we make.

Quality: We always strive for the best.

Delivering optimum quality services is a must. We do not aim to meet customers' expectations. We aim to exceed them.

Human capital: We believe in our team.

Our most valuable asset is our team. We cherish a learning culture and nurture the potential of our employees.

Innovation: We will always find a way.

Our company strives to continuously come up with solutions that create value for customers. We empower employees and embrace innovative developments in all our business processes.

Sustainability: We respect our environment and community..

Our company cares for the environment. Conserving valuable resources is one of our many environment-friendly strategies. Maintaining sustainable operations is also part of our strategy to continue serving our community for many generations to come.

MEP CONTRACTING

Our team of mechanical engineers and designers leverage their “out of the box” creativity to develop and implement cost effective, intuitive, robust solutions for mechanical challenges. From calculating the pressure drop for a pneumatic convey system, to analyzing the stress in an evaporator vapor duct, we have the skill set, knowledge base, and experience to fill your mechanical needs, large or small.

What sets us apart is that our team undergoes continuous extensive training that is unmatched in the industry. We follow blueprints and specifications for installation, inspect and maintain systems, install controls, test individual parts, and replace worn-out components.

- Ventilation and air filtration systems
- Chilled water systems
- DX / VRV systems
- Package units
- Extract fans
- Fresh Air Handling Units
- Ecology Units and Make up Air Handling Units etc.

MEMO puts a lot of emphases to ensure that every plumbing system installed is equipped with well-sized and securely connected pipes, drains fittings, valves, valve assemblies, and devices for the proper distribution of water.

The plumbing systems that WE are specialized in:

- Sanitary and drainage systems
- Water distribution
- Water treatment
- Variable and fixed speed pumping systems
- Solar Heaters
- Kitchen and laundry plumbing
- Irrigation systems and controls etc.

The reliable protection systems we install have one main purpose which is to prevent the interruption of services necessary for the public welfare and avoid area-wide conflagrations, all while putting the safety of life at the utmost priority.

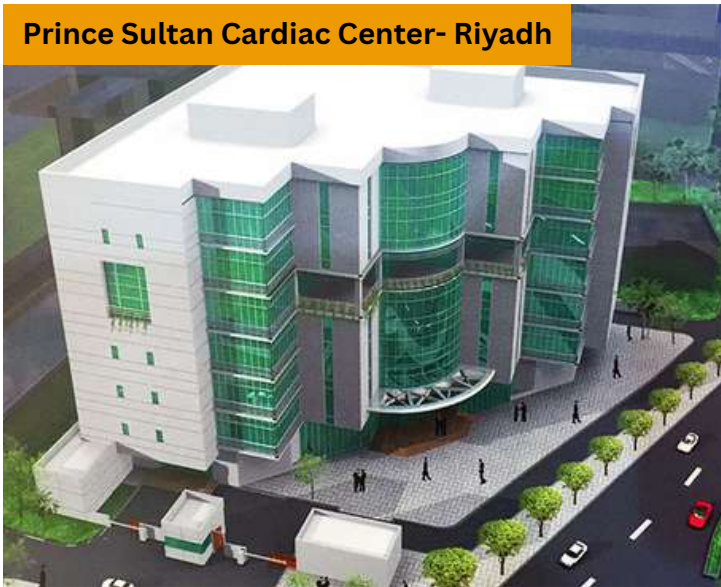

Other systems we install:

- Fire Pumping Stations
- Fire suppression systems
- Fire extinguishers
- Fire hose reels
- Fire hydrant systems
- Automatic sprinkler systems
- Dry and wet riser etc.

Maintenance Services

Optimal mechanical maintenance requires precision and safety – from new machine installation to end-of-life dismantling. Helping you comply with environmental and safety regulations; we offer the following mechanical maintenance services:

- Facility Management
- Operation

CONSULTANCY

MEMO has a technical team offering round-the-clock services to ensure that our clients are satisfied from project inception until its completion.

MEMO has a full range of engineering consultancy services in:

- **Architectural Production**
- **Civil Engineering**
- **Electrical Engineering**
- **Mechanical Engineering**
- **Water Desalination Plants**
- **Project Management**

Electrical Engineering

MEMO engineers systems that distribute power where is needed, safely and reliably, while providing optimal protection for personnel and equipment.

Our range of services includes:

- Gen-Sets
- Low Current Systems
- Lighting
- Lightning Protection
- Power Distribution
- Medium/Low Voltage
- Infra-Structure & Street Lighting
- Transformers, RMUs, Switch Gears etc.

EPSs are extremely useful in many different settings such as residential homes, hospitals, research laboratories, data centers, and telecommunication centers. MEMO works specialize in many emergency power systems that include:

- Generators
- UPS

Energy Management Services

Our core values are translated into every aspect of our business.

MEMO Energy is an expert provider for a comprehensive Customer Driven Energy management solutions and services, covering the whole spectrum of Energy Efficiency and Sustainability Fields.

Our aim is to provide the latest Energy Cost Saving Solutions, customized for commercial, industrial and institutional sectors in MENA Region.

Being a certified ESCO company, our role combines both the consulting and contracting parts of energy solutions. As such, it has also the expertise to manage, implement, and commission with the measurement and verification of the savings for all energy efficiency and renewable energy projects.

- **Energy Efficiency Audits for industrial and commercial environments**
- **Implementation of Energy Efficiency Solutions**
- **Cloud-based Energy and Resources Management services**
- **Renewable Energy Solutions**
- **Assistance in project financing etc.**
